

CCWR July 2018 ENews!!!

Hello Fellow Wildlife Rehabilitators!

Summer is well underway. Some of us have cooler weather, while many are battling raging fires. We wish them well and a quick extinguish. If any of you need some assistance, please help us post information on our website by emailing info@ccwr.org.

We work hard. We wipe our brows and start in again. Some young charges are all grown up and ready for release with the promise of a new generation in the future. What a dramatic tale they have to tell, being rescued by the giants, nurtured, fed and housed in foreign places, then comes the day for freedom! How exhilarating and scary that must be for them.

Watch yourselves too, for those signs of stress and tiredness. Be sure to take the precious moments to rejuvenate yourself and recharge.

Your Enews!!! Team. **Kathy, Ruth, Karen and Star**

Symposium Update

We have been working hard to recruit speakers and are currently reviewing the proposals for this year. It looks like we have a wonderful lineup to provide at the CCWR Symposium. We plan to have acceptance emails out by the end of July. Registration for the symposium will start in August, so stay tuned.

Please remember that most rooms at EarthRise are designed for double occupancy and to get the most out of this venue we ask that

when registering for the symposium that you look for a roommate or request a roommate assignment. However early birds get the best options, so register early.

Want to know more about the venue this year? Take a virtual tour of the [IONS EarthRise](#) site. Cost for the accommodations and other relevant information is available on the [Symposium page](#).

Join the Board of Directors

Our bylaws allow CCWR to have up to 15 board members and we have just 8 right now and several terming out at the end of the year. With more board members, each will have to do less throughout the year. We would really like to encourage anyone who has accounting/bookkeeping, event planning, or website management experience to join. If you have an interest, please complete our online [BOD Application form](#).

Printable Member Directory

This is the last chance for members to update their profile before the 2018 directory is finalized. Please [login](#) and update before July 20.

About the Banner Photo

Photo taken by Kira Gunderson of Condor #463 at Pinnacles National Park. This male condor was hatched on 4/2/2008 at the World Center for Birds of Prey in Boise, Idaho and released in Pinnacles in 2009. This is one of the most commonly sighted condors in the park. Read more [profiles of the Pinnacles condors](#). Do you have a photo and story to share? Send it to enews@ccwr.org!
